SITUATION SUMMARY

Bully Incident, Vegetation Fire, Shasta County (Update)

Old Bully Choop Road, Community of Igo, Shasta County

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of 07/14/14 at 0558 hours:

- SRA
- 4,400 acres, 15% contained
- Structures Threatened: 15 single residences, 0 other minor structures
- Structures Damaged: 1 single residence
- Structures Destroyed: 8 single residences, 10 other minor structures

Nicolls Incident, Vegetation Fire, Kern County (Update)

Scodie Mountains – Kiavah Wilderness, Lake Isabella, Kern County

Per CAL FIRE, Cal OES Fire Duty Officer, and ICS-209 as of 07/14/14 at 0613 hours:

- FRA
- 1678 acres, 60% contained
- Structures Threatened: 50 single residences

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

High pressure aloft will build over the forecast area through today producing hot weather conditions across the interior. Moisture moving up from the south will return the threat of thunderstorms on Tuesday. Surface high pressure will build toward the coast through today and bring better chances of afternoon clearing, mainly south of Cape Mendocino.

San Francisco Weather:

The warming trend is forecast to peak this afternoon along with an increase in mid/high level clouds spreading northward over the forecast area. As the high pressure ridge to the east weakens by midweek, near seasonal conditions will return for the remainder of the work week.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Hot weather will peak today followed by a slight cooling trend into midweek. A chance of Sierra crest thunderstorms south of Lake Tahoe today, then thunderstorm chances spread north into the northern mountains during midweek.

Hanford Weather:

Sub-tropical moisture will push into the area today providing increased cloud cover and a chance of showers and thunderstorms to the mountains and Kern County deserts, as well as the foothill areas through Tuesday. Chances for showers and thunderstorms will then migrate north and be confined to the higher elevations of the southern Sierra Wednesday through Saturday. Temperatures will remain above normal Tuesday into the following weekend.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Weakening high pressure and an increase in clouds will bring a cooling trend through Tuesday. Monsoonal moisture will bring a threat of showers and thunderstorms to the forecast area midweek, especially for the mountains and deserts.

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

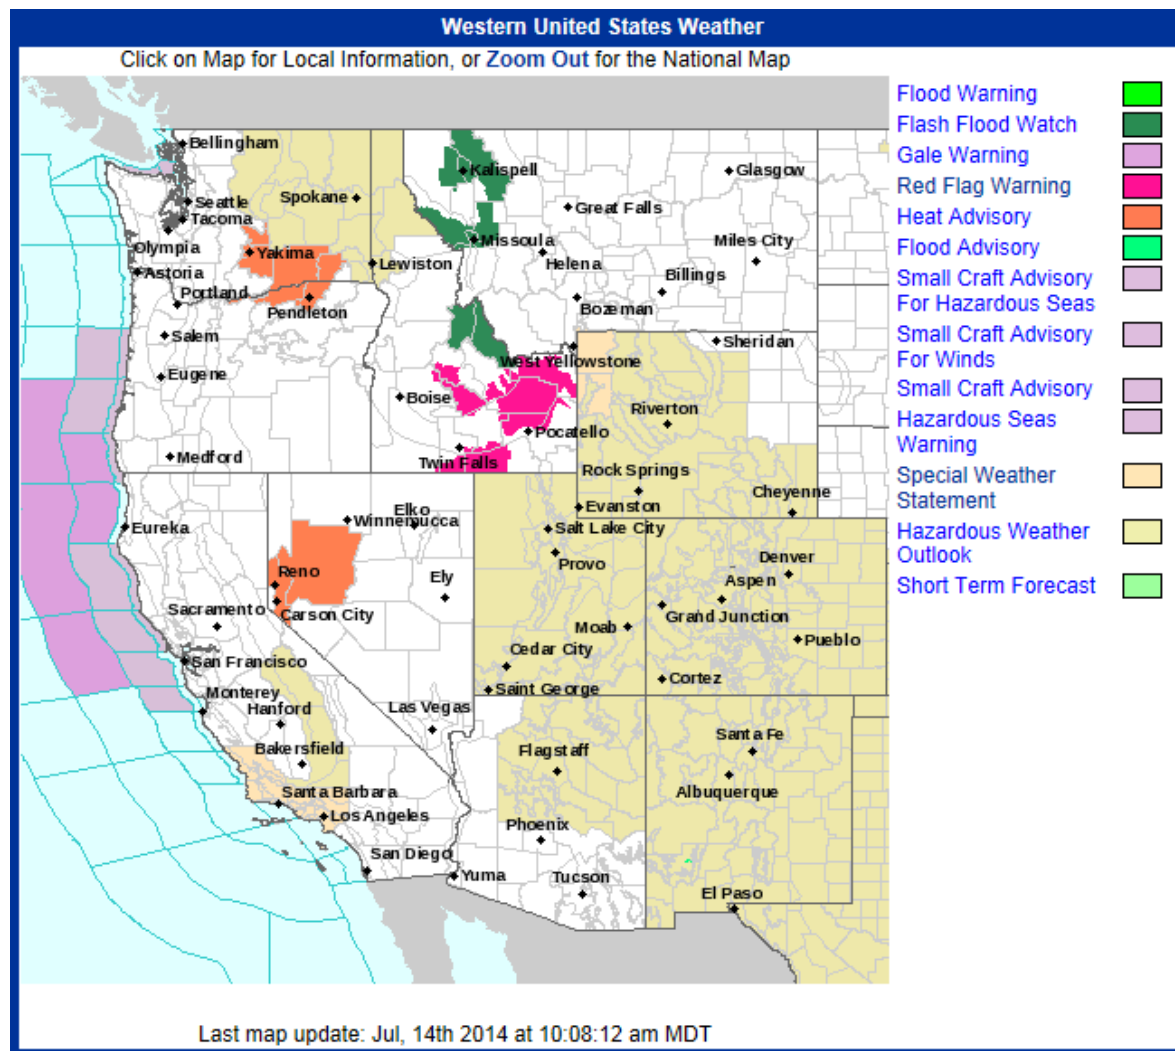

Easterly flow will bring mid and high clouds and widely scattered mainly light showers today. If enough breaks occur in the clouds this afternoon over the inland areas, thunderstorms are possible over the mountains, deserts, and inland valleys. Residual moisture could continue a chance of showers and thunderstorms for the San Bernardino County mountain and desert areas for late tonight through Tuesday afternoon. Dry weather is then expected for Wednesday into next weekend. The marine layer and onshore flow will bring areas of night and coastal low clouds and fog, extending into the western valleys for the middle and latter part the week. High pressure should bring inland warming next weekend.

Southeast California Weather:

Monsoon moisture will continue to increase across the region through Tuesday with a chance of showers and thunderstorms. Cooler temperatures are also forecast due to clouds, humidity, and rainfall. By Wednesday, a drying and warming trend is forecast to continue into Friday. Increased humidity and a threat of afternoon thunderstorms will return next weekend.

FIRE ACTIVITY

Bully Incident, Vegetation Fire, Shasta County (Update)

Fire Information

Old Bully Choop Road, Community of Igo, Shasta County

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of 07/14/14 at 0558 hours:

- SRA
- 4,400 acres, 15% contained
- Structures Threatened: 15 single residences, 0 other minor structures
- Structures Damaged: 1 single residence
- Structures Destroyed: 8 single residences, 10 other minor structures
- The threat to structures, residents and incident personnel will continue due to hot, dry weather and receptive fuels and difficult terrain.
- CAL FIRE IMT 6 assumed command at 1800 hours on 07/12/14.
- One (1) Local Government Strike Team, five (5) water tenders and miscellaneous overhead assigned.
- Total Personnel: 1804

EOC Activations:

- Shasta County EOC activated at Level 1.
- Inland REOC and SOC activated at Level 1 in support of Shasta County EOC.

Deployments:

- A Cal OES Assistant Fire Chief is assigned to the Bully Incident as an Agency Representative.
- Two Public Safety Communications Radio Technicians are assigned to the fire.

Nicolls, Vegetation Fire, Kern County (Update)

Fire Information:

Scodie Mountains – Kiavah Wilderness, Lake Isabella, Kern County

Per CAL FIRE, Cal OES Fire Duty Officer, and ICS-209 as of 07/13/14 at 0613 hours:

- FRA
- 1678 acres, 60% contained
- Structures Threatened: 50 single residences
- CAL FIRE Air Resources assigned.
- Central Sierra Interagency IMT (IC Cooper) is assigned.
- Steep rocky terrain, very limited access and high winds continue to hamper suppression efforts.
- Total Personnel: 879

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- On 7/8/14 the State Water Board will publicly release proposed water conservation requirements to reduce water waste across the state. These proposed emergency regulations include mandatory restrictions on water use, and will be considered by the Water Board on 7/15/14.
- California Department of Fish and Wildlife staff evacuated trout from a major hatchery on the American River last week to avoid a massive die-off of fish due to increased water temperatures in the hatchery. Over two million fish are being relocated and released earlier than normal due to drought conditions.
- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

Situational Summary

Open Burn Ban in effect across the state: Open burning is now prohibited on 31 million acres of land across the state, due to a burn ban that CAL FIRE has directed each of its unit chiefs to implement. This ban on open burning in state responsibility areas (outside of cities and towns) reduces wildfire danger amidst extremely dry conditions.

The National Weather Service provided the following synopsis for the relationship of Blowing Dust Advisories and the drought conditions in southeast California: Dust storms are common due to increased thunderstorm activity and the winds produced with these storms, during monsoonal flows. The severity of the dust storms could be locally exacerbated by drought conditions. In any event, the public should monitor NWS for any advisories and warnings issued by NWS.

On July 1 2014, administration of the CDPH Drinking Water Program (DWP) transferred to the California State Water Resources Control Board (SWRCB) Division of Drinking Water. CDPH and the SWRCB entered a Memorandum of Understanding outlining a three-month transition period during which drought response activities and any other emergencies will be coordinated jointly between the two organizations.

CAL OES MISSIONS

New Cal OES Missions

- 2014-LAW-4031, IERCC reported a SPOT activation in Sequoia National Park, near Black Kaweah Mountain, in Tulare County. The emergency contact for the device reported that the registered owner is a 56 year old female and an avid backpacker. LDO contacted the Tulare County Sheriff's Office and Sequoia National Park Rangers. The Park Rangers used a helicopter to locate the victim and air lift her out. She had sustained an suspected torn ligament in her knee while backpacking and could not continue the trip. She was transferred to a ground ambulance and transported to a hospital. **Mission Closed.**

Ongoing Cal OES Missions

- **2014-LAW-3978, Mission reopened.** San Bernardino Sheriff's Office requested resources for a homicide investigation. Searches conducted on 7/12/14 were not successful. Kern and LA SAR teams remained on site over night and conducted additional searches on 7/13/14. Cal OES LDO is coordinating resources.
- **2014-LAW-4014,** Mendocino County Sheriff's Office requested a cadaver dog team for a search related to a homicide to be conducted sometime next week. Cal OES LDO is coordinating resources.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
